

BRYANT IVERSON C. MELLIZA

Caloocan City, Philippines | bryantiversonmelliza03@gmail.com | +63 939 817 0375 | Portfolio: bryant-melliza.vercel.app

PROFESSIONAL SUMMARY

4th-year Information Technology student and Software Developer Intern experienced in building web and mobile applications using React, Next.js, React Native, TypeScript, PostgreSQL, and PHP/CodeIgniter. Skilled in full-stack development, API integration, UI/UX implementation, and Agile collaboration.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP, SQL | **Frontend:** React, Next.js, React Native, Tailwind CSS, Bootstrap | **Backend:** PostgreSQL, Prisma ORM, MySQL, Firebase, Supabase, CodeIgniter | **Tools:** Git, GitHub, Bitbucket, Jira, ClickUp, Figma, Stitch, Antigravity IDE

PROFESSIONAL EXPERIENCE

Software Developer Intern | NLP Business Development Services | November 2025 – February 2026

- Developed responsive full-stack web applications using React, Next.js, Prisma ORM, and PostgreSQL while maintaining legacy PHP/CodeIgniter systems.
- Redesigned internal modules to improve UI/UX and collaborated through Bitbucket workflows with AI-assisted tooling to accelerate debugging and feature delivery.

Intern Developer | J Labs Innovatech Inc. | March 2026 – April 2026

- Contributed to cross-platform mobile application development using React Native, Expo, and TypeScript within an Agile development environment.
- Integrated third-party AI APIs and implemented Zod-based validation for onboarding, profile management, and data integrity.

Intern Developer | OneNetworx Marketing | May 2026 – June 2026

- Developed responsive insurance marketing platforms, interactive product systems, and validated form workflows using React, Vite, and Tailwind CSS.
- Migrated email infrastructure to the Gmail REST API via OAuth2 and integrated PostgreSQL/Supabase to optimize secure lead management and asynchronous data workflows.

KEY PROJECTS

- **Property Custodian Management System** | Full-Stack Developer | Feb 2026 — Developed a Microsoft Power Platform resource management system with predictive inventory and asset lifecycle tracking for a commissioned client project.
- **Prefect Disciplinary Action System** | Full-Stack Developer | Feb 2026 — Engineered a rule-based decision support system that categorized student infractions and recommended handbook-compliant disciplinary actions.
- **PetSense: RFID Grooming Management** | Web & IoT Developer | Oct 2025 — Built a web and RFID-integrated grooming management system to automate pet identification and service tracking.
- **AlertPoint: Disaster Risk Reduction System** | Lead Full-Stack & IoT Developer | Oct 2025 — Developed an IoT-based disaster response network with hardware sensors, web dashboards, and mobile emergency broadcasting (Best in IoT-Cross Platform Award).
- **VetFlow: POS & Inventory System** | Lead Full-Stack Developer | Feb 2025 — Built a PHP/MySQL POS and inventory system for Shepherd Animal Clinic to replace manual operational workflows.

EDUCATION

Bachelor of Science in Information Technology – Mobile and Internet Technologies

National University — Fairview | June 2022 – August 2026

- **Awards:** Consistent Blue Scholar (100% Scholarship), Consistent First Honor Deans Lister, GDSC Chief Creative Officer, UI/UX & Networking Competition Champion

STEM Strand

- Caloocan National Science and Technology High School | 2020 – 2022
